### Hydropneumatic Rippers

#### Memo “No-stop” series

With safety hydropneumatic device

It can be used, as well as the plough, especially for stony soils.

Its hydropneumatic device allows to work with no stops as the tines automatically lifts with stones and any kind of natural obstacles.

It is also possible to apply adjusting soil labour depth wheels and double roller

Serie	Modello	Kg	cm		cm		HP	HP
			cm	cm	cm	cm
